

ESSBOX+ CRATE

AREA OF USE

ESSVE Store-It enables smart storage and transport of products, tools, and gadgets needed on the construction site. Store-It includes two dividers that can be placed in the crate to create separate spaces for increased organization. ESSVE's green case Organize-It is used as a lid for Store-It.

Advantages of Store-It:

- Organizes loose inventory needed on site
- Enables easy transport of loose inventory
- Convenient storage

Store-It is part of ESSBOX+ system which helps carpenters bring all necessary inventory between workshop, van and construction site - in one go. Combine Store-It with the other two ESSBOX+ products, Organize-It and Roll-It, to get the most out of the system. Organize-It structures all your fastening and gives you a complete overview of inventory and is designed to act as a lid for Store-It. Both Organize it and Store-It should be transported on Roll It!

DESCRIPTION

Store-It is made of recycled plastic, is durable and can withstand rough handling. It is created to store and organize loose inventory needed on construction sites. The bottom of the crate has the same octagon pattern as ESSVE's product packaging, which means that ESSVE's product packaging can also be stored in Store-It. The bag is made of 100% recycled plastic and made in Sweden! When purchasing Roll-It two green dividers are included, which are used to further organize the space in the crate.
